

Speakers Available

Would you like to have someone talk about Christian Science in your classroom?

The Church of Christ, Scientist, founded by Mary Baker Eddy, maintains a Board of Lectureship with speakers located throughout the United States, as well as in several other countries. All speakers are experienced practitioners of Christian Science healing and can tailor their talk to the needs of your curriculum. A question and answer period is welcomed, and additional academic resources can be provided for further research. These talks are solely for educational purposes and do not involve any proselytizing.

Sample of academic institutions where talks have been given

- California State University at Fullerton
- Central Oregon Community College
- George Mason University
- Harper College (Illinois)
- Harvard Medical School
- Lutheran Theological Seminary (Ohio)
