**INTERACTIVE EXPERIENCE AT THE CHRISTIAN SCIENCE PLAZA  
IN BOSTON**

*Visit the thought-provoking multimedia exhibits in the How Do You See the World? experience at the Christian Science Publishing House*

BOSTON, MA—Everyone is welcome at the *How Do You See the World?* experience at the Christian Science Publishing House. Immerse yourself in highly interactive exhibits, including features that offer contemporary context to one of Boston’s most iconic landmarks, the *Mapparium*™ globe.

“*How Do You See the World?* is an experience that engages everyone—no matter their background,” said Gaby Mejía, the experience’s Exhibit Manager. “We all impact the world around us, and this exhibit allows everyone to genuinely ask, ‘How can I make our world better? Can I be more compassionate, constructive, and perhaps more thoughtful?’”

Experiential opportunities include:

- Step into the world before World War II in the three-story *Mapparium* stained-glass globe, complete with a new audio narration and light show.
- Look deeper into humanity’s advancement since 1935 with stories from *The Christian Science Monitor* newspaper that illustrate progress in human rights, alleviating poverty, environmental stewardship, and more, plus “Faces of Change,” which profiles individuals around the world who have made a difference in their communities.
- Learn about the woman who founded *The Christian Science Monitor* and the Christian Science church—Mary Baker Eddy (1821-1910)—through exhibits that explore her lifelong love of the Bible and its ongoing relevance and application to today’s universal questions.
- Be immersed in exhibit spaces that come alive with a custom-composed musical score, multimedia tables, interactive projection-mapped displays, and historic artifacts.

For more information about the *How Do You See the World?* experience, please visit [christianscience.com/howdoyouseetheworld](https://christianscience.com/howdoyouseetheworld).

### **About The First Church of Christ, Scientist**

The First Church of Christ, Scientist in Boston, Massachusetts, also known as The Mother Church, is the home of the worldwide Christian Science Church. Christian Science was founded in 1879 by New Englander Mary Baker Eddy (1821–1910), who was a devout student of the Bible and the teachings of Christ Jesus.

The *How Do You See the World?* experience with the *Mapparium*™ globe is located inside the lobby of the Christian Science Publishing House, which is situated on the 13.5-acre Christian Science Plaza and houses The Christian Science Publishing Society, The Mary Baker Eddy Library, and the Church's administrative offices. The Publishing Society publishes the church's religious magazines, as well as *The Christian Science Monitor*, a global news organization and winner of seven Pulitzer Prizes, whose mission is "to injure no man, but to bless all mankind."
