

WHAT IS CHRISTIAN SCIENCE?

- It's a Christian religion based on the Bible. Jesus intended his healing works to be carried on by his followers, as the Bible tells us. Christian Science teaches that anyone can understand the spiritual laws that Jesus relied on when he healed.
- In 1866 Mary Baker Eddy, an avid student of the Bible, was healed of life-threatening injuries by reading a biblical account of one of Jesus' healings. This healing convinced her of the existence of an underlying Science to Christian healing and the fundamentally spiritual nature of being.
- Eddy wrote the complete statement of her spiritual discovery in a textbook, *Science and Health with Key to the Scriptures*. She also founded a church, with branches around the world.
- Christian Scientists are learning that daily study of the Bible and *Science and Health* reveals that everyone has an inseparable relationship to a loving God who cares about each of us.
- This church publishes religious magazines in multiple languages, as well as the Pulitzer Prize-winning newspaper *The Christian Science Monitor*.

THE FIRST CHURCH OF CHRIST, SCIENTIST, IN BOSTON, MASSACHUSETTS, USA

WHAT DOES CHRISTIAN SCIENCE MEAN BY “HEALING”?

Healing means a permanent mental and physical transformation. Often someone who is healed is naturally grateful for a physical or moral change but even more thankful for the new way they feel about their relationship to God and the renewal that this brings. Healing as Christ Jesus healed has been happening through Christian Science for more than 160 years. And this systematic and practical application of prayer is why the word *Science* is added to the word *Christian*.

DO CHRISTIAN SCIENTISTS VISIT DOCTORS?

The Church respects everyone’s right to make their own choices regarding their health. Christian Scientists often choose prayer as their first option because they’ve been healed before and found it effective.

IS THIS THE SAME AS SCIENTOLOGY?

No. Christian Science is a Christian, Bible-based religion grounded on the teachings of Christ Jesus.

HOW CAN I BE HEALED?

You can begin by knowing right now that God loves you. Many have discovered a deeper sense of God’s love through studying the Bible alongside the Christian Science textbook, *Science and Health with Key to the Scriptures*, by Mary Baker Eddy. The last 100 pages of *Science and Health* include heartfelt accounts of lives changed and hope restored from people from all walks of life who were healed by reading the book.

Our weekly and monthly magazines, as well as our Sunday church services, Wednesday testimony meetings, and Sunday School classes for children up to the age of twenty are additional ways to learn about Christian Science healing. Anyone can understand and apply the Science of Christ to bring healing to their lives and to the lives of others today.
